

August 3, 2026

Dear Selection Committee,

I am pleased to recommend Abigail Coolidge. I had the privilege of teaching Abigail at Mount Saint Mary's University in Pharmacology II and Community/Public Health. Throughout both courses, she consistently demonstrated professionalism, initiative, intellectual curiosity, and a strong commitment to evidence-based, patient-centered nursing care.

Abigail is an exceptional leader who communicates effectively, accepts responsibility, and encourages those around her to succeed. As the class student representative for Men in Nursing, she served as a thoughtful advocate for her peers and helped promote communication, inclusion, and collaboration within the group. She approached this responsibility with maturity and reliability, balancing the needs of her classmates while maintaining a positive and respectful presence.

In addition to her leadership abilities, Abigail brings a strong academic foundation and diverse clinical experience in areas including community health, oncology, cardiology, pediatrics, maternal-newborn care, and mental health. Her previous experience in utilization review, medical documentation, and direct patient care has further strengthened her clinical judgment, attention to detail, and ability to work effectively with interdisciplinary teams.

I am confident that Abigail will bring compassion, integrity, professionalism, and strong leadership to her nursing career. She has the ability to positively influence both her colleagues and the patients entrusted to her care. I recommend Abigail without hesitation.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Bowman".
